VIBES	Virgin Islands Benefit Eligibility System

2 Introduction

2.1 Purpose

The purpose of the Online Change of Circumstances (COC) Functional Design Document (FDD) is to present the design components of the enhancements being made to the Citizen Portal. The Citizen Portal is a citizen-facing application with features such as applying for health benefits, checking application and renewal statuses, downloading notices, and upload supporting documents.

2.2 Scope

The Citizen Portal FDD will document all the modifications/additions made to the Out of The Box (OOTB) screens, batches, tasks, notices, and notifications to support the enhancements of the Citizen Portal. The enhancements include:

- Accounts for the Puerto Rico Medicaid Program Services Portal (PSPMPR) can be created by a caseworker
- Users can submit a request online to link their case information to their PSPMPR account
- View information about their case information
- Submit an online application prepopulated with data from their case
- Apply for Retroactive Medicaid online
- Report changes online
- Complete renewal form online
- View notices online
- New notices and notifications
- No touch processing of online application

2.3 Not in scope

This design does not include database schemas, Structured Query Language (SQL) queries, Decision Summary Table implications, and other technical details required to fully implement the online intake application process via the Citizen Portal. Details related to reports, interfaces, online appeals, and multi-factor authentication will be covered in separate FDD's.

2.4 Team Members

Table 2: Team Members

Vaidehi Padte	PMO

3 Key Assumptions

Below are the Key Assumptions made during the Fit/Gap and Design processes related to this FDD:

1. The Caseworker Portal and the Universal Access Responsive Web Application (Citizen Portal) functionalities represented within this document are based on Cúram Version 7.0.5 and customizations from other Cúram implementations.
2. The artifacts documented in this FDD serve as a direct input for the development effort. All documented designs have been technically assessed for feasibility; however, there may be instances during the build process where new or conflicting information may force the design to be updated. In these instances, the updated proposed design will be presented to Puerto Rico Medicaid Program (PRMP) for review and approval before any build activity commences.
3. The acronym "OOTB" refers to the base system functionality that is being transferred from a prior implementation and the implementations from

Release 1. This will be the base system that will be modified to meet Puerto Rico Eligibility and Enrollment (PREE) requirements for the Stabilization Release.

4. PRMP recognizes the practicality of accepting this assumption but conditions it on the features not documented within design documents being in compliance with regulations, the Puerto Rico Medicaid State Plan and Puerto Rico public policy.
5. OOTB functionality, which meets the state's needs, will not always be documented in detail unless there is a business or development-related reason to do so.
6. The OOTB Software documentation for Cúram can be obtained at the IBM website.
7. The Virgin Islands Benefit Eligibility System (VIBES) FDDs can be obtained at the PREE SharePoint site.
8. The PREE Glossary document is available on the PREE SharePoint.
9. The mockups provided within each 'Screenshot' section serves as a prototype of what the page might look like, however, these prototypes are subject to change due to the discretion of the development team to meet the requirements listed under the 'Description Modification and Addition' sections.
10. Prior to linking an External User to a Registered Person, the Registered Person cannot be an active member in more than 1 case. As person moves from cases, caseworker must ensure that person is not an active member on multiple cases.
11. For manual linking, caseworker will complete Identity (ID) Proofing prior to creating the link record on the External User page.
12. Primary Members can view all available information related to their case, including information recorded on their case pertaining to other household members, via their PSPMPR account. They can also report changes on behalf of their case members.
13. Case members can only view available information related to themselves on the case and can report changes for and about themselves.
14. A user or an External User is a person with an account on PSPMPR.
15. A Person is a registered participant of type Person in PREE.
16. New and modified notices documented within this FDD will be reviewed and approved as part of this deliverable. Once approved, these notices will be moved to the Notices and Forms FDD.

4 Business Processes

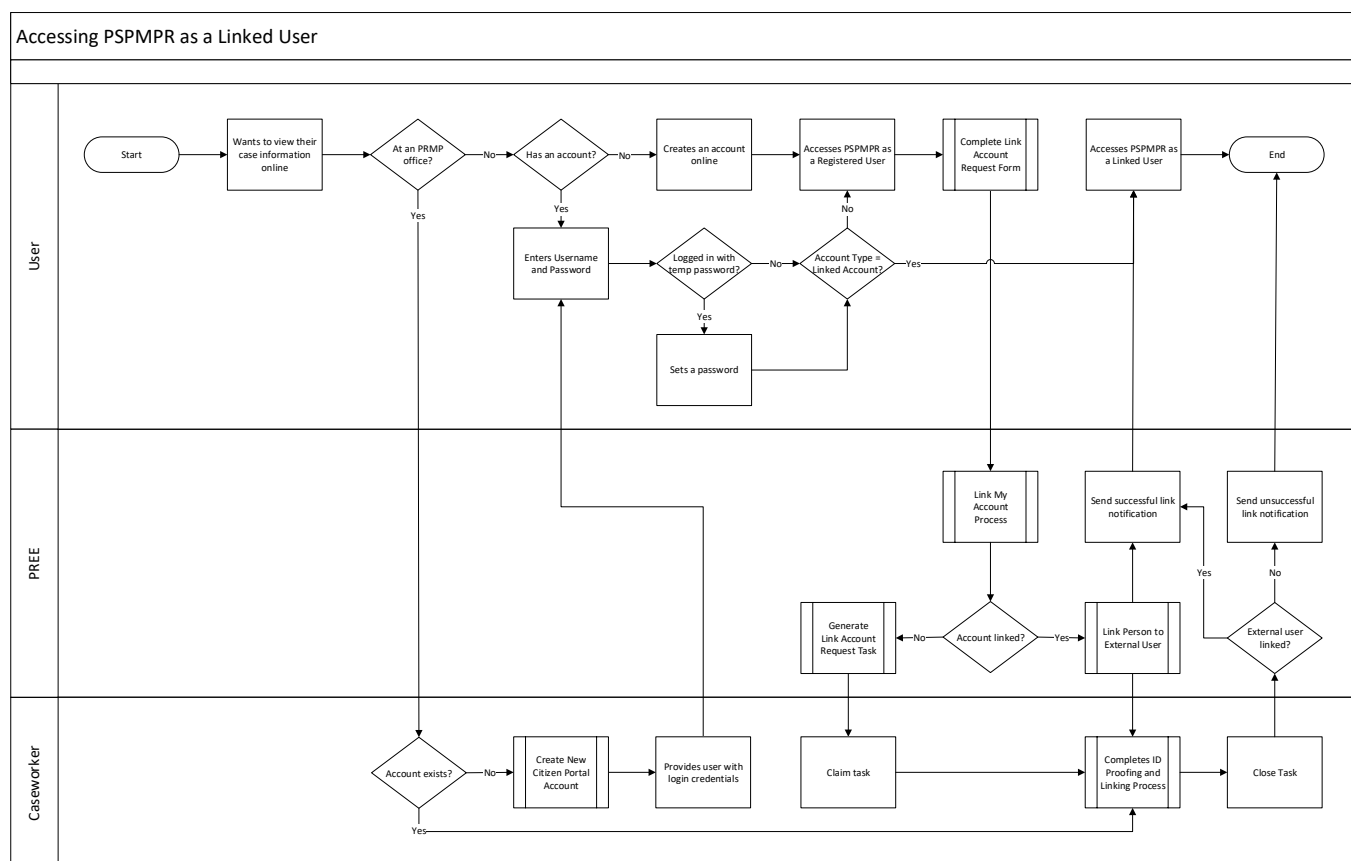

The Business Processes section contains high-level overview of business process related to the Online COC Citizen Portal FDD.

4.1 Accessing PSPMPR as a Linked User Business Process

This process illustrates a high-level overview of the alternative ways users can gain access to their case as a linked user without having to submit an online application. As part of Release 1 (R1), an online application successfully processed will produce a linked account. This process will remain the same and is not documented in this process. As a linked user, one would be able to see supplemental information from their case, such as their coverage information, renewal status and form, and change forms.

Figure 1: Accessing PSPMPR as a Linked User

4.1.1 Detailed Description

User wants to view their case information online

User wants to view their case information online. There are two alternative ways a user can accomplish this, by submitting a 'Link my account' request form via PSPMPR or with the assistance of a caseworker.

User submits a 'Link my account' request form via PSPMPR

If the user is on the PSPMPR website, then they must complete the following steps to submit the 'Link my account' request form:

1. If user already has an account, login. Else, user must create an account to login.
2. Once logged in, the 'Link my account' card will appear on the dashboard. Note that the card will disappear once a request was submitted, or the account is linked using an alternative method.
3. Click on the 'Link my account' card and complete the form.
4. Once submitted, PREE will attempt to systematically link the account. If successful, then user will receive the 'Your Account Has Been Linked' notification to inform them that their request was successful. Else, a task will be generated for the caseworker to manually complete the process.
5. When a caseworker claims the task, they can complete the manual linking process as described in Citizen Portal FDD.
6. Once the caseworker has taken all the appropriate steps to attempt to complete the link request, they close the task. Note that when the task is closed, PREE will check if the External User was linked with a Person. If so, then the "Your Account Has Been Linked" notification will be sent. Else, the 'Unsuccessful Link My Account Request' notification will be sent.

User is being assisted by a caseworker

If the user is at an PRMP office, then a caseworker can assist them to obtain a linked account:

7. Caseworker will determine if the user already has an account. If not, a new account can be created from the Person profile page. Upon completion, caseworker will printout a notice with their username and temporary password.
8. Once the user account is created (by a caseworker or previously by the user), then the caseworker can proceed with the manual linking process as described in Citizen Portal FDD.

5 Screen Modifications

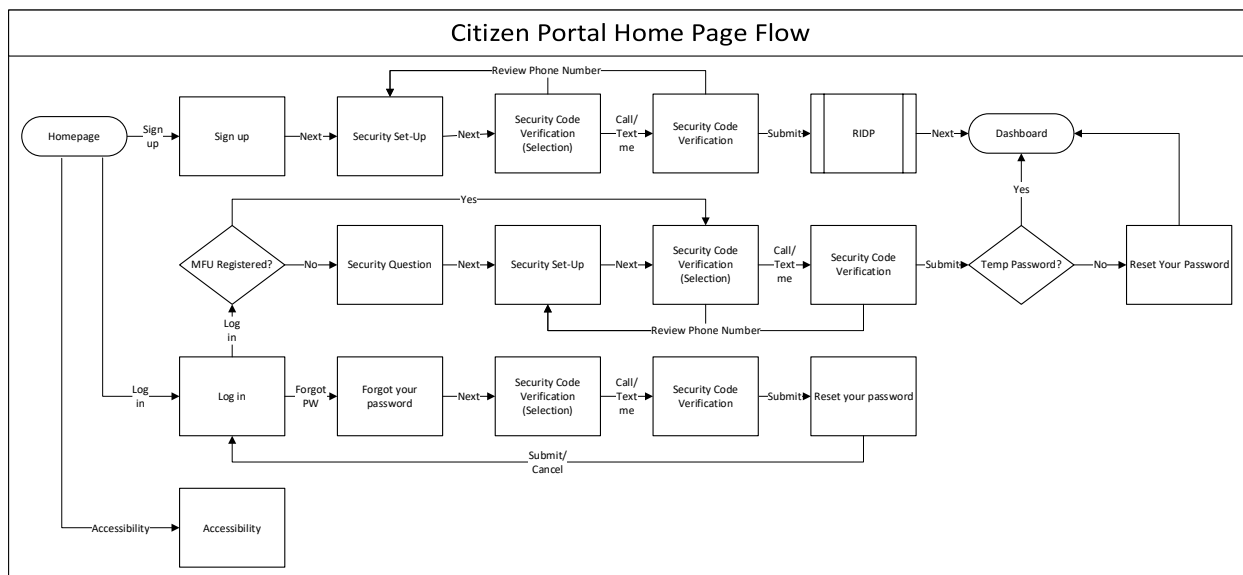

This section contains screenshots that are modified based on PREE requirements and/or Joint Application Design (JAD) discussions. There are two types of screenshots. The first is Modify – these are screens with modifications. Modifications are identified by a numbered red square that references the description in text below the screen. The second is "New" – these are new screens created based on specific requirements which have been requested. The new screens include numbers which reference the description in the supported documents.

5.1 Homepage

The 'Homepage' section pertains to the changes made to the links accessible from the PSPMPR homepage.

Figure 2: Citizen Portal Home Page Flow <CR189>

5.1.1 Sign up

The Sign up page will allow citizens to sign up for a new account with a unique email address and username. This page is being modified to remove the security questions. ~~and collect cell phone number.~~

5.1.5 <CR189> Security Code Verification

The 'Security Code Verification' page will display each time a user logs in or updates their phone. On this page, user will enter the single-use code received by voice or text.

5.1.5.1 Screenshot

Figure 7: Security Code Verification (New)

5.1.5.2 Description of Modifications and Additions

Details located in:

Document	Tab Name
Online COC - General.xlsx	Security Code Verification

5.1.6 <CR189> Security question

The 'Security question' page will no longer display after users completed the security set-up. For users with an account prior to the MFA release, they will be asked to answer a security question correctly to proceed with setting up their security phone number. Once the security set-up is complete, the user will no longer be asked to enter the answer to a security question.

5.1.6.1 Screenshot (Modified)

Figure 8: Security question

5.1.6.2 Description of Modifications and Additions

This page should only display after the Log in page when the following conditions are both true:

- Security questions with answers has been recorded for user
- User hasn't completed the security set-up

Once the security question is answered correctly, display the Security Set-Up page.

If one of these conditions are false, then skip this page and display the Security Code Verification page.

5.1.7 Footer

The footer of the Citizen Portal is being modified to add a link to the Accessibility page.

Details located in:

Document	Tab Name
Online COC - General.xlsx	Accessibility

5.2 Your Account

The 'Your Account' section of the Citizen Portal provides citizens with access to certain features based on the user account status that consist of the following:

- Account Type: Registered vs Linked
- ID Proofing Status: Completed vs Not Completed
- User Role: Primary Member vs Case Member
- Identified Integrated Case (IC): <IC> vs Null

I.4.2.m.ii Completed Online Change of Circumstance FDD

- Note that per Assumption #10, a Person should only be an active member on a single case. This case is referred as the Identified IC. See Defining External User Privilege Process (New) for more information on how User Role and Identified IC are established.

<CR189>

As a user, one will be able to complete an application, COC, and/or renewal. However, only one IEG script can be in progress at a time. Also Applications and COC will not be available during a renewal period.

The table below provides an overview of the different views based on the user account status. See Online COC - General.xlsx for the full list and display condition.

Table 3: User Account and Functionality Mapping

		When a user account meets the following criteria:			
User Account Status	Account Type: ID Proofing: IC Identified: User Role:	Linked Completed Yes Primary	Linked Completed Yes Member	Linked Completed No N/A	Registered N/A N/A N/A

5.2.3 Your Benefits

The 'Your benefits' page provides the user the ability to view status of application submitted via their account and their current coverage information. If the user is the primary member on the case, then they can also view their household members' coverage and renewal information.

The primary member will be able to fill out and submit an online Renewal Form if there is a household member within the recert period. The following table shows which renewal status to display based on multiple factors. Household members NOT within their recert period will NOT be listed in the Renewal Status card.

Table 4: Renewal Status

Citizen Portal Renewal Status	Recert Record Status	Online Renewal Form	Within Recert Period
Not Completed	<ul style="list-style-type: none"> ■ None ■ In Progress ■ Manual Recertification 	Not submitted	Yes
Pending Decision	<ul style="list-style-type: none"> ■ None ■ In Progress ■ Manual Recertification 	Submitted	Yes
Pending Verifications	<ul style="list-style-type: none"> ■ Pending Verifications 	Any	Yes
Completed	<ul style="list-style-type: none"> ■ Completed/Eligible ■ Completed by ExParte/Eligible ■ Completed/Ineligible 	Any	Yes
Past Due	<ul style="list-style-type: none"> ■ None ■ In Progress ■ Manual Recertification 	Any	Yes and Adequate Notice Period

5.2.5 Your Settings

The 'Your settings' page in the Citizen Portal provides citizens with the ability to modify their email address, cell phone number, notification preference and paperless notice settings. It is accessed by the 'Update your settings' link on the dashboard. <Pending Decision EE-DL00271>

5.2.5.1 Screenshot (New)

Figure 18: Your settings (collapsed) <CR189>

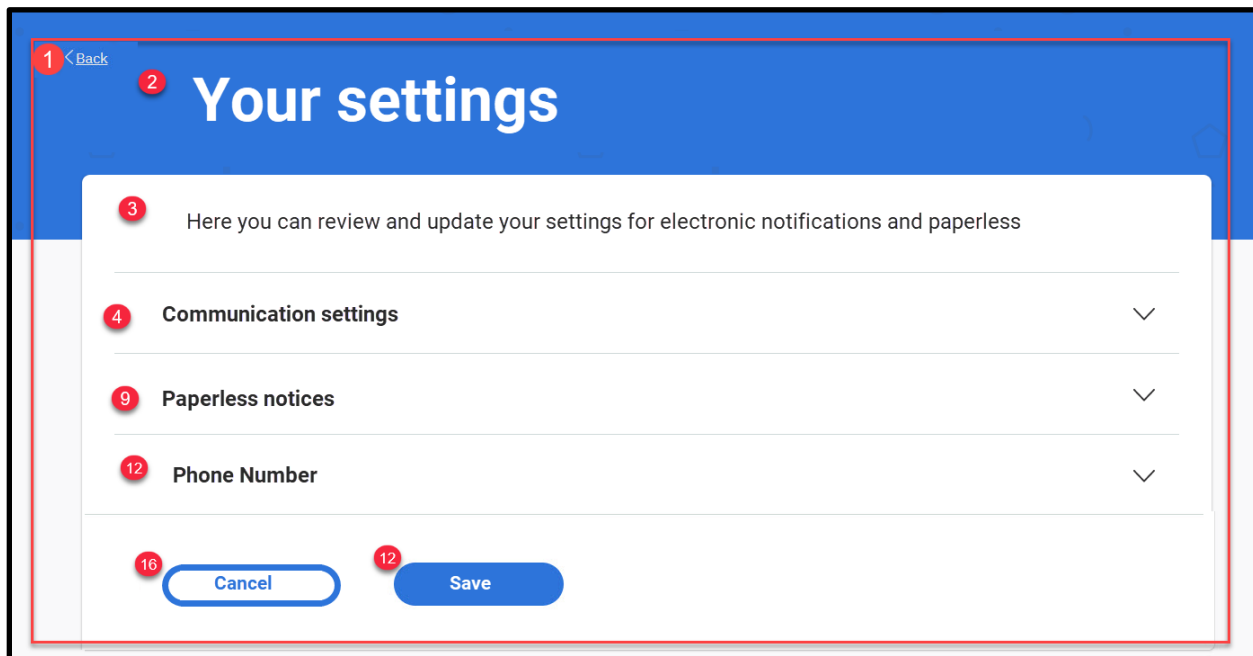

Figure 19: Your settings (expanded) <CR189>

1 < Back

2 Your settings

3 Here you can review and update your settings for electronic notifications and paperless notices from the Medicaid Program.

4 Communication settings

5 In this section you can change settings which control how we communicate with you about your benefits. Notifications provide alerts when we require your attention in PSPMPR, such as when a new notice is available or a new change was reported.

6 Email address:

8 What language do you wish to be notified in?

9 Paperless notices

10 Save time and paper by choosing to go paperless to receive your notices online, rather than by postal mail. We'll send you a notification when your notices are available. You'll be able to see your notices, including mailed notices, in the Notice page in PSPMPR. However, notices not available electronically will still be mailed to you. You can change your choice at any time by returning to this page and selecting 'No'.

11 Would you like to go paperless and view your notices online?

12 Phone Number

13 In this section you can change the phone we will use to send the single-use code by voice or text message each time you log on.

14 Phone number: 123-456-7890

15 [Need to update your number? Click here.](#)

5.3 Retroactive Application

With the implementation of the Online COC FDD, PSPMPR users will be able to apply online for Retroactive benefits. The 'Include Benefits' page was added back to allow the user to indicate that a retroactive application should be included with their normal application for benefits. In this case, to facilitate income calculations for the retroactive period, income screens are modified to include 3 additional months of income for a total of 6 months prior income, for situations where the income varies from month to month. Retroactive coverage which exceeds 3 months prior to the start of normal coverage is not supported by the Citizen Portal. Caseworkers will be notified by a task when an applicant has recorded a medical expense with a start date greater than 3 months ago to ensure that the case contains all the necessary information to properly evaluate the applicant for retroactive benefits beyond the prior 3 months.

See the Citizen Portal FDD for more information about the blank online application and Prepopulated Form for more information about the prepopulated online application.

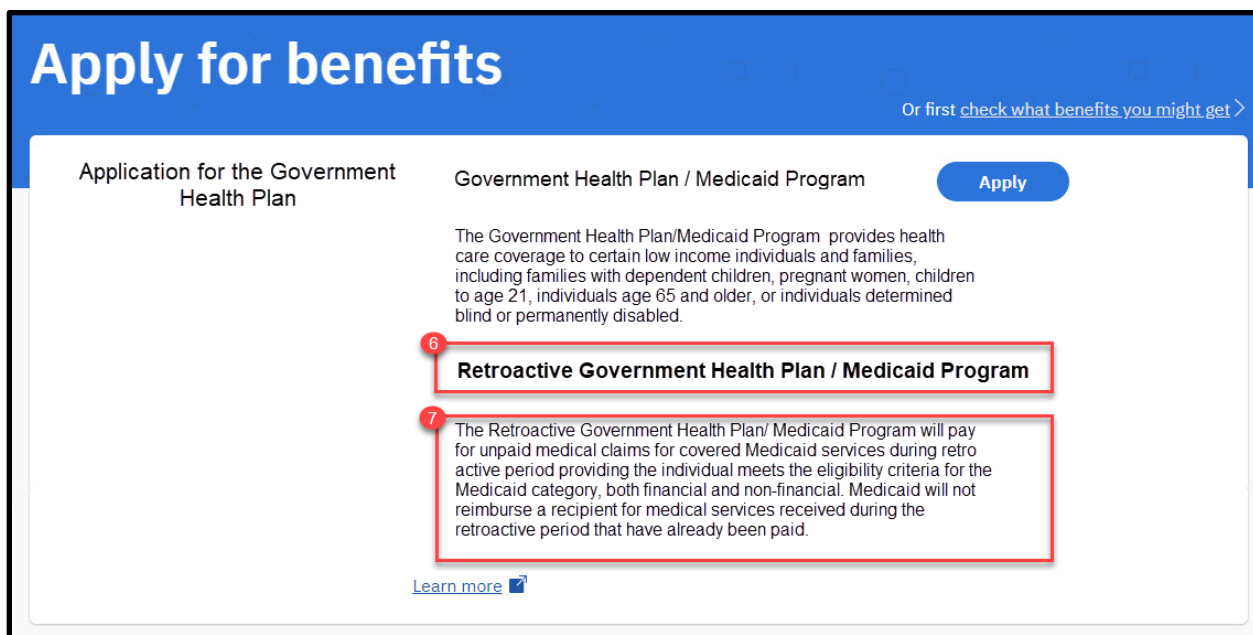

5.3.1 Apply for benefits

The 'Apply for benefits' page is displayed when a user chooses to apply for benefits. The user can now apply for retroactive coverage online. Modification to this screen include text providing brief overview of retroactive coverage program.

5.3.3 Employment

The 'Employment' page is displayed when the user states that he/she is receiving employment income. If the user has selected to apply for retroactive coverage, then employment income for three additional previous months is gathered. Modification to the OOTB screen for applications with retroactive coverage include conditionally asking if the user received a different amount in the past 6 months and if yes, the corresponding income amounts.

5.3.3.1 Screenshot (Modify)

Figure 26: Employment – Application with Retro Coverage

The screenshot shows a web form titled "Employment" with a blue header. Below the header, there are two household members listed: "Stawberry" (Age 20) and "Banana" (Age 20). The form prompts the user to "Tell us about Stawberry, age 20" and states, "From the information you have given us Stawberry is employed, please enter Stawberry's employment details below." A section titled "Employment Details" includes a help icon and the instruction: "Please enter the details of Stawberry's job below:". A blue callout box explains that employment includes all income, wages, salaries, tips, or commissions from any type of work including full or part time, temporary, seasonal or migrant. The form contains several input fields: "What is the name of Stawberry's employer?" (text box), "How often is Stawberry paid?" (dropdown menu with "--Please Select--"), "How much is Stawberry paid?" (text box with a "\$" symbol), and "When did Stawberry start this job?" (text box with "DD/MM/YYYY" format).

5.4 Prepopulated Forms

With the implementation of the Online COC FDD, those with the privilege of obtaining prepopulated online forms, as described in Table 3: User Account and Functionality Mapping, will be able to review and make the necessary updates to those forms. The following forms are available prepopulated:

- **Prepopulated** Application – allows users to apply online for regular and retroactive benefits.

- Renewal – allows users to complete an online renewal form for benefit extension.
- Change of Circumstances – allows users to submit multiple type of changes.
- ~~▪ Change Address – allows users to report changes to the household members' residential addresses and the case mailing address.~~
- ~~▪ Change Income – allows user to report changes related to income.~~
- ~~▪ Add and Remove Household Member – allows user to report changes related to their household unit.~~

These forms will be prepopulated with data from evidences that meet the Prepopulating Criteria, as defined below:

Table 5: Prepopulating Criteria

Field	Criteria	Comments
Participant	Has a Household Member evidence on the case without an end date	
End Date	Null OR a future end date	Except for Pregnancy evidence. Pregnancy evidence will be prepopulated if the due date OR end date is within the last 3 months.
Status	Active or In-Edit	If an evidence has a version that is Active and a version that is In-Edit, then display the In-Edit version.

When these forms are submitted, any changes made will have an effective date as described below:

Table 6: Effective Date Rules for Online Changes

Condition	Effective Date
-----------	----------------

I.4.2.m.ii Completed Online Change of Circumstance FDD

Form Type	Start Date updated?	
Any	Yes	Start Date
Application	No	1 st of month of the application date
Not Application	No	Date form was submitted

In addition, when a user adds a new household member to their case, if the household member was previously a member on the case, then a Household Member Evidence will already exist with an end date. When this is the case, the end date should be removed using the effecting dating logic defined above.

When a form is prepopulated, the following fields are displayed but cannot be modified: names, social security numbers (SSN) and birth dates of both primary and household members. SSN are masked to only display the last 4 digits.

This section contains details pertaining to the Application, Renewal and Change of Circumstances forms. These three forms share many of the same pages and similar page flow.

The page flow for these forms are as follows:

- Overview pages – the overview pages that provide information about the selected form.
- Summary pages – the summary pages provide a summary of the information PREE has for that person or case. From these pages, users can Review, Remove, or Add.
 - **Change Review** – when user clicks on **Change Review** from any prepopulated form, this will provide the same functionality as the Change button on a blank application summary page. User will be navigated to a prepopulated detail page of the record. On this page, user can review the information and make the necessary changes.
 - Remove – when user clicks on Remove from any prepopulated form, they will be prompted to confirm the removal.
 - Add – when user clicks on Add from any prepopulated form, this will provide the same functionality as the Add button on a blank

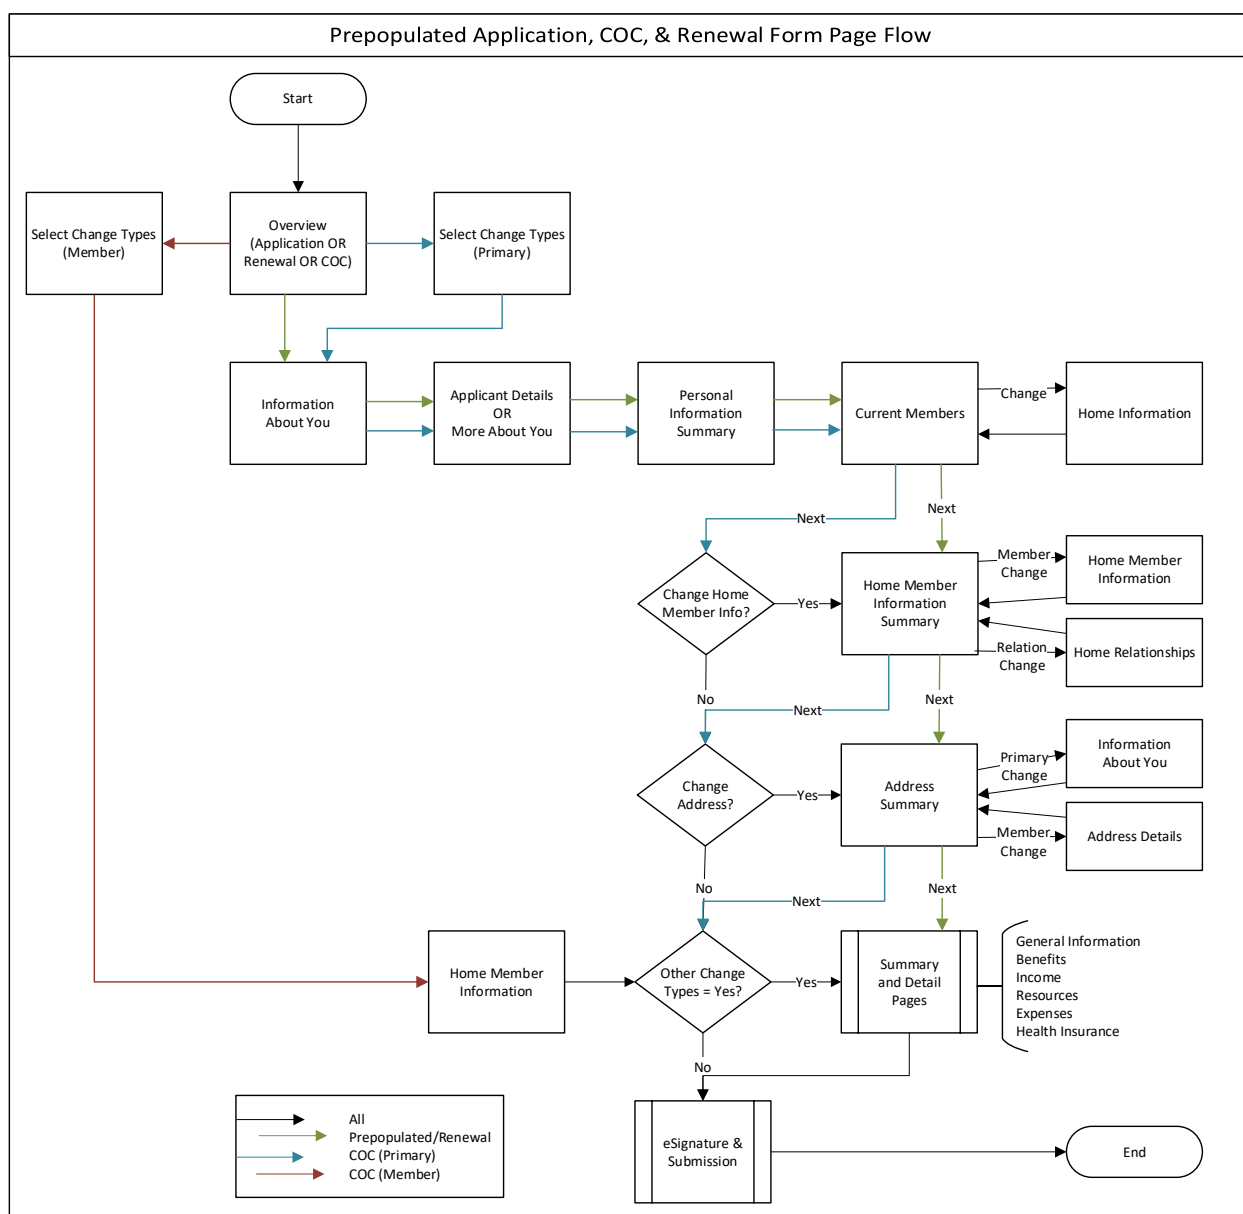

I.4.2.m.ii Completed Online Change of Circumstance FDD

application summary page. User will be navigated to a blank detail page of the record. **If the User Role is Primary, then list each member on the case. If the User Role is Member, then list only the user.**

- Submission pages – the submission pages provide a signature page and submission confirmation page.

Below is an overview of the page flow. Please review the Page Mapping tab within the 'Online COC - App, COC & Renewal' spreadsheet for the mapping between each page to the forms.

CitizenPortal-COC-Address.xlsx	Address Change Summary

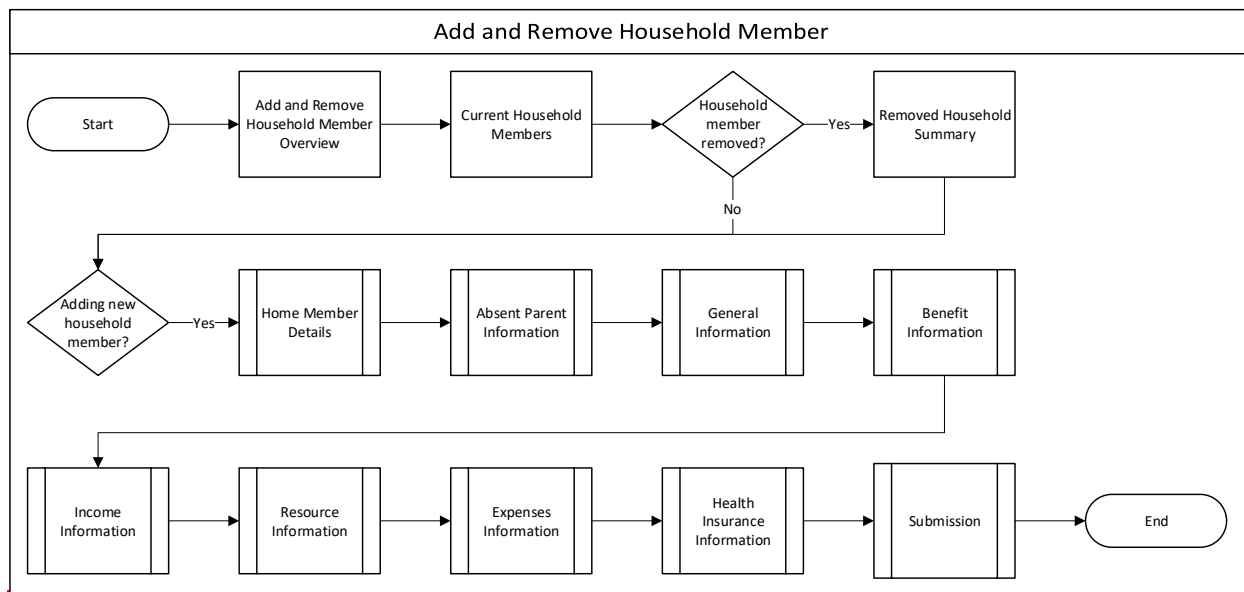

~~5.6 <CR189> Add and Remove Household Member~~

~~The Add and Remove Household Member functionality allows the user to remove~~

~~and add members to the household. The user can add and remove single or multiple household members. When a user adds a new household member it is equivalent to starting the application for the newly added members and will collect all relevant information.~~

Figure 68: Add and Remove Household Member Page Flow

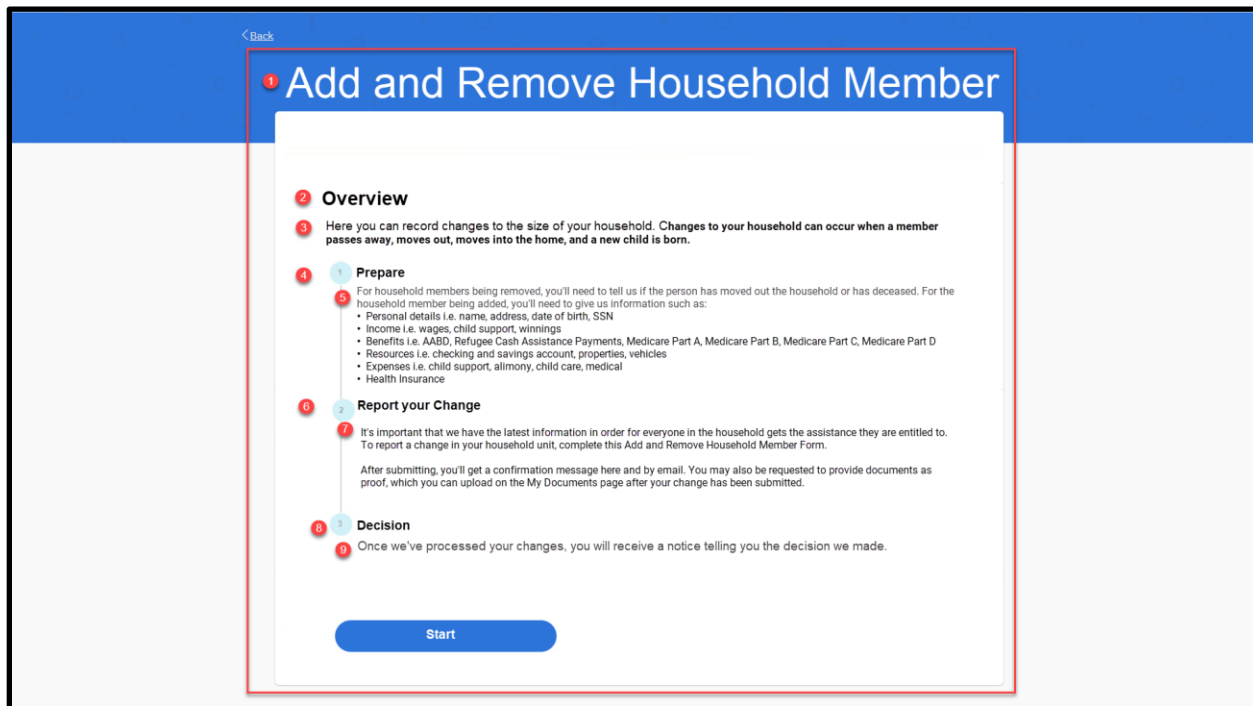

5.6.1 Add and Remove Household Member Overview

~~The 'Add and Remove Household Member Overview' page is displayed when the user indicates that he/she wants to add and/or remove a household member on their case. This page provides a brief overview on how to add and remove household members on the case and the information that will be collected.~~

5.6.1.1 Screenshot (New)

Figure 69: Add and Remove Household Member Overview

5.6.1.2 Description of Modifications and Additions

Details located in:

Document	Tab-Name
Online COC—AddRemoveHHM.xlsx	Add and Remove Household Member Overview

5.6.2 Current Household Details

The 'Current Household Details' page displays the list of all household members on the case. The user can view the list and remove one or multiple household members. When the user selects to remove a household member, the reason for removal and the corresponding date is also captured. The user can indicate if he/she wants to add a household member. If the user chooses to add a household member, it is treated as an application and the user is prompted to enter all the details of the household member including demographic, address, general information, income, resource, and expense information. The relationships details are gathered for each new member against everyone in the household. The user can choose to add one or multiple household members.

5.6.2.1 Screenshot (New)

Figure 70: Current Household Details

The screenshot shows a mobile application interface for managing household members. At the top, there is a blue header with a '< Back' button and the title 'Your Household'. Below the header, a yellow box contains instruction 2: 'Select any members you wish to remove from your household. If you do not wish to remove anybody, leave BLANK Then tell us if there is a new member you wish to add to your household.' The main content area is divided into two sections: 'Remove a member' and 'Add a member'. The 'Remove a member' section includes a list of members with checkboxes and ages. 'Strawberry Cheesecake' (Age 25) is unselected. 'Banana Cheesecake' (Age 20) is selected. Below this is a dropdown menu for the reason of removal, currently set to 'Moved out of the household', and a date input field for 'Moved out on DD/MM/YYYY'. 'Mango' (Age 3) is unselected. The 'Add a member' section includes a question 'Do you wish to add a household member?' with a dropdown menu currently set to 'Yes'. A blue 'Next' button is located at the bottom of the form.

5.6.2.2 Description of Modifications and Additions

Details located in:

Document	Tab-Name
Online COC-AddRemoveHHM.xlsx	Current Household Details

~~5.6.3 Removed Household Member Summary~~

~~The 'Removed Household Member Summary' displays the list of all the household members the user reported as moved out of the household in the previous sections. The user can review the changes and either edit or delete the change as needed.~~

~~Once the user reviews the information on this page and clicks on Next, the system must treat the person as being removed from the household. It must not display the removed household member information on subsequent screen in any given form/process, including but not limited to the relationship status of the removed household members with other members of the household, general information, income, expense, resources and health insurance for the removed household member(s). This is true for all prepopulated forms.~~

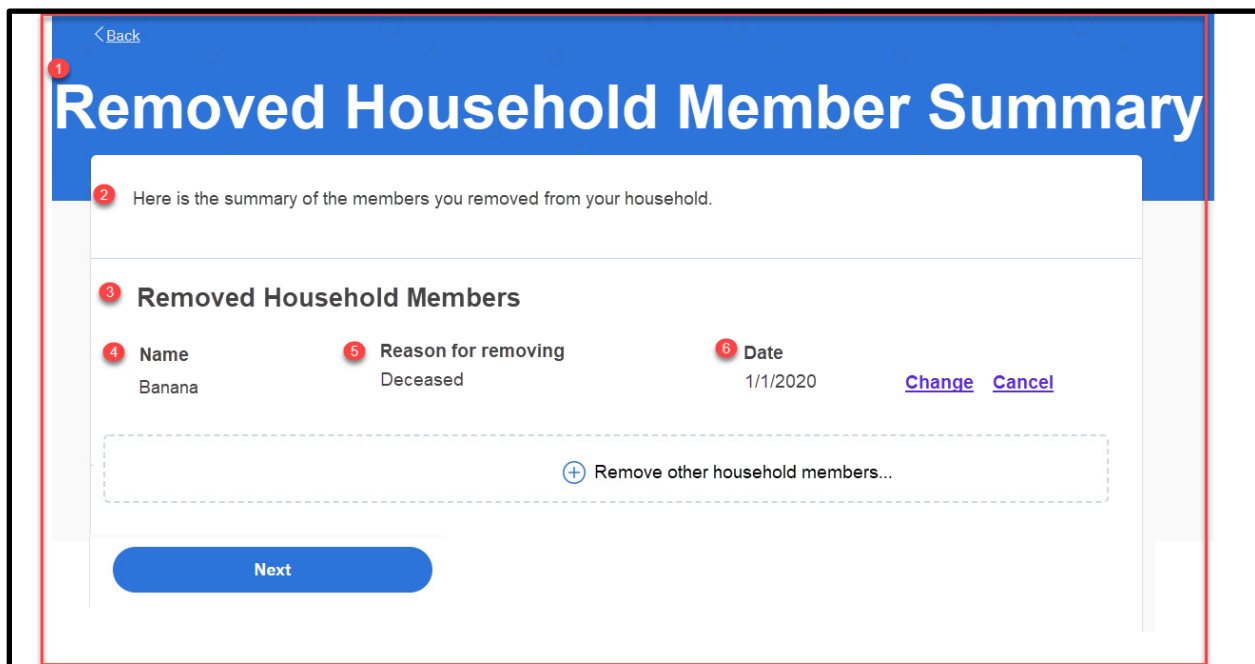

~~Once the user submits the prepopulated form and has indicated that he/she wants to remove a household member, the household member record on the IC case is end dated as follows—~~

- ~~a. If the removed household member has moved out of the house, use the moved out date and end date the household member record with the moved out date.~~
- ~~b. If the removed household has deceased, then end date the household member record with the date of death. Also, record the date of death on the Person record for the deceased household member.~~

5.7 <CR189> Change Income

The 'Change Income' functionality allows the user to report change in income. The user can report a single or multiple income changes. The user can make changes to employment, self-employment, other income, trust, and annuity incomes. The user can also indicate if they are no longer receiving a source of income.

Figure 72: Change in Income Page Flow

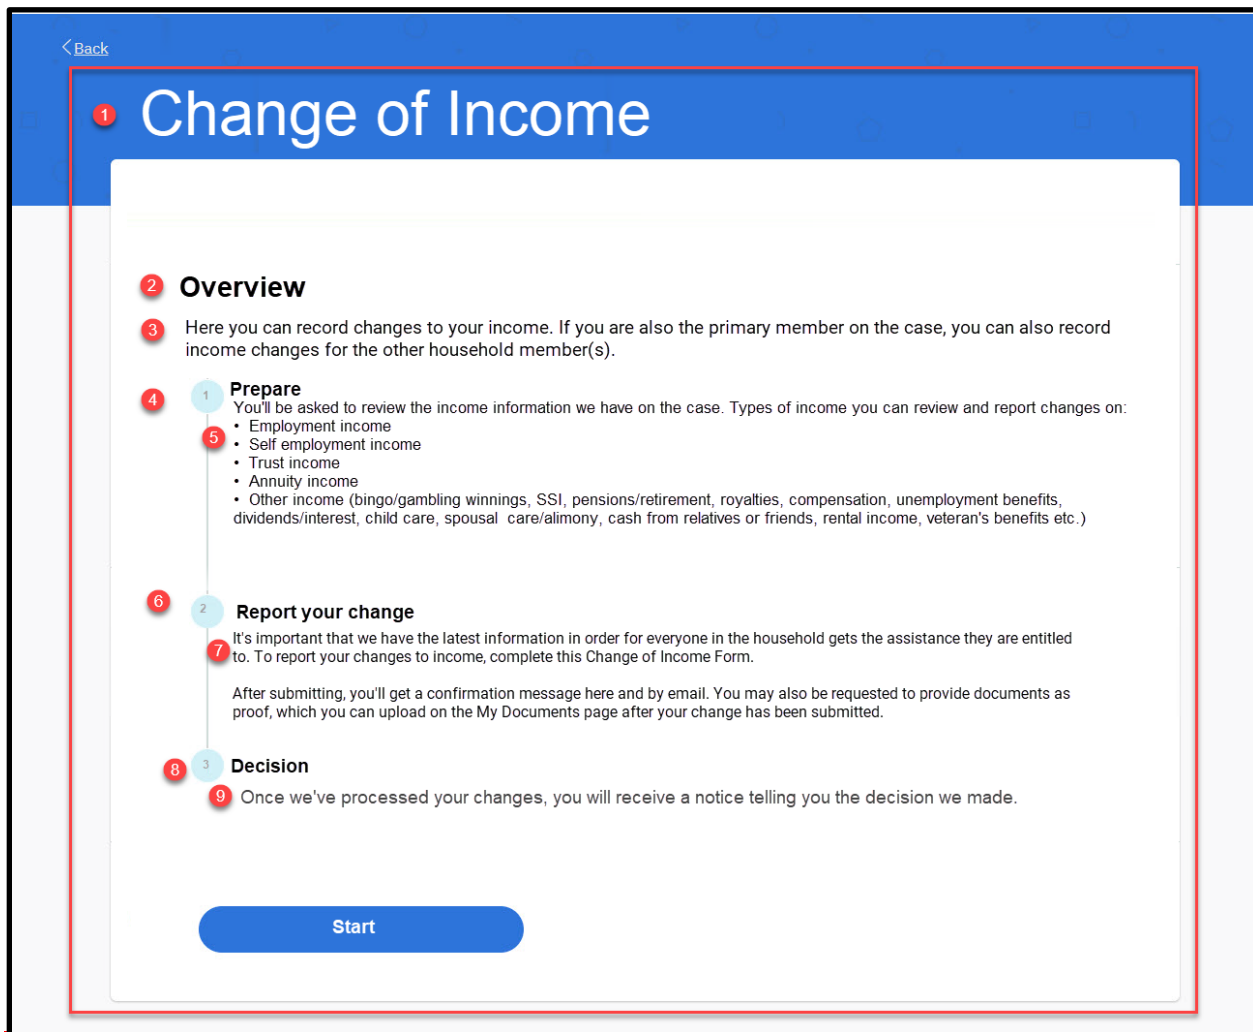

5.7.1 Income overview

The 'Income Overview' page is displayed when the user indicates that he/she wants to update an income on their case. This page provides a brief overview on how to update the income(s) on the case.

5.8 Person Case

This section contains the modifications made to the Person Case to support Citizen Portal.

Figure 74: Person Case Action Menu Page Flow

5.8.1 Action Menu

The Action Menu provides different actions to take against the Person Case, including creating, enabling, disabling a Citizen Portal Account. These links are being updated to refer to the Citizen Portal as PSPMPR instead of Universal Access.

The 'New PSPMPR Account' link will only be visible if the person has not been linked to an External User account, either by systematically or manually linked from the External User profile.

The 'Disable PSPMPR Account' link will only be visible if the person has been linked to an External User account, either by systematically or manually linked from the External User profile AND the External User account is enabled.

The 'Enable PSPMPR Account' link will only be visible if the person has been linked to an External User account, either by systematically or manually linked from the External User profile AND the External User account is disabled.

Online COC - Worker Portal.xlsx

Person Action Menu

5.8.2 New PSPMPR Account

When the caseworker clicks on 'New PSPMPR Account' link from the action menu the 'New PSPMPR Account' popup will display. This popup will be prepopulated with the preferred email id for the user if it exists on the case. The caseworker can edit the email address if needed. The caseworker enters username specified by the client. The username and email id must be unique. When the 'Save' button is clicked, the following will occur:

- A random one-time use password is generated.
Tech note: When the one-time use password is used the account should remain locked until the password is reset online by the user.
- The 'New PSPMPR Account with Temporary Password' notice is available for printing only.
Tech note: A random one-time use password should be generated. (2) Once used, the account should remain locked until the password is reset.
- Client will receive the 'New Account Notification'
Tech note: The OOTB email notification that was modified/replaced by the 'New PSPMPR Account' email notification
- Create the External User profile with the data from the Person profile. Create the Linked Participant record. Set ID Proofing status to Complete.
Tech note: Creating the Linked Participant should trigger the 'Finalizing Linking Process', which will set the Account Type to Linked and trigger the Update External User Profile. For more details see the Linking External User with Person Process (Modify).

On the 'External User' Home tab, caseworkers can view the External User's email address and phone number.

5.9.2.1 Screenshot (Modify)

Figure 82: External User Home

The screenshot shows a web interface for 'External User Home'. At the top, there are navigation tabs: 'Home', 'Linked Participants', and 'Attachment'. The main content area displays user information in two columns. The left column includes: First Name (Strawberry), Last Name (Cheesecake), Date of Birth (3/1/2000), and Email Address (cheesecake@aol.com). The right column includes: Middle Name, Second Last Name, Social Security Number, and Phone Number (123-345-6789). Below this is a section for 'Identity Proofing Details' with a dropdown arrow. At the bottom, it shows 'Completed by' (eligibilityspecialist) and 'Completion Date' (2/4/2021). Red boxes highlight the 'Email Address' and 'Phone Number' fields, with red circles containing the numbers 7 and 8 respectively.

6 Batch Modifications

The Batch Modifications section will provide a detailed list of all the batch and systematic processes being modified, added, or removed per the PRMP requirements associated to Citizen Portal FDD.

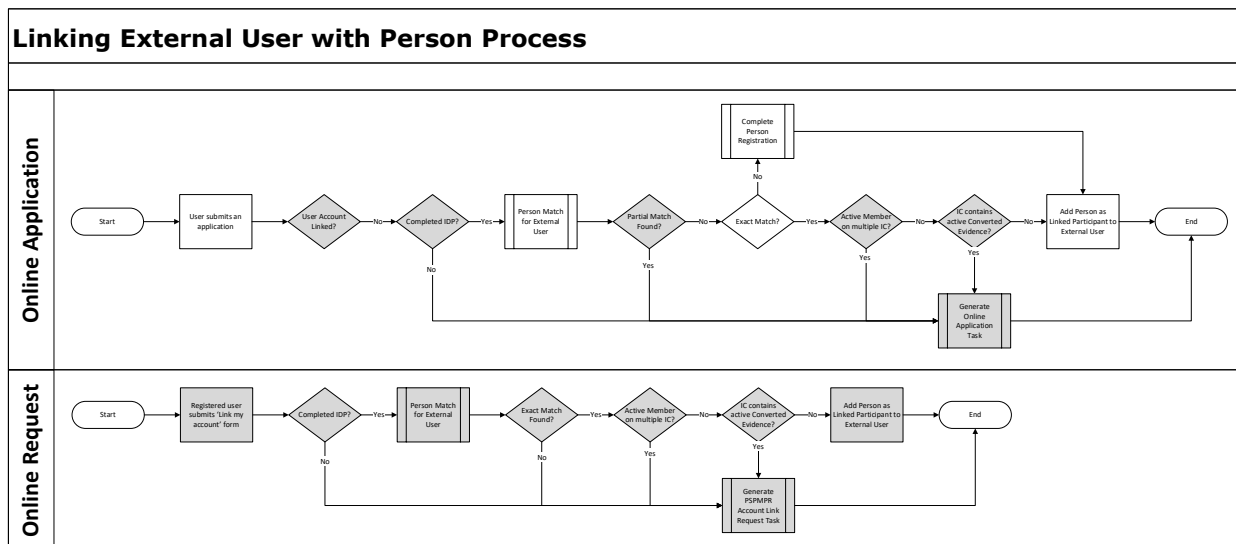

6.1 Linking External User with Person Process (Modify)

The 'Linking External User with Person' process is being modified to support the new features being introduced to PSPMPR, including the 'Link my account' form.

6.1.1 High Level Steps

Figure 84: Linking External User with Person Process <CR189>

6.1.2 Predecessor

N/A

6.1.3 Successor

Finalizing Linking and Unlinking Process (Modify)

6.1.4 Execution Frequency

<CR189> Real-time-Nightly

6.1.5 Inputs

The inputs will be determined by the development team.

6.1.6 Outputs

The outputs will be determined by the development team.

6.1.7 Detailed Steps

Search for all applications submitted from a registered account since last execution of batch. For each application Execute Person Match for External User and perform the following:

- **IF** All the following are true after the Person Match Process is completed:
 - An Exact Match was found between External User and an existing Person participant record
 - Person has a single Household Member evidence without an end date (active on a single case)

- IC doesn't have a Converted evidence without an end date (case is no longer in converted mode)
- ◆ **THEN** Execute the following
 - ◆ Create a Linked Participant record with the following data:
 - External User's Relationship = Person
 - Participant = Person
 - ◆ ~~Execute Finalizing Linking and Unlinking Process~~ (Modify)
 - ◆ ~~Generate 'Your Account Has Been Linked' notification~~
- ◆ **ELSE** Generate Online Application Task
- **OR IF** The following is true after the Person Match Process is completed:
 - A No Match was found between External User and the existing Person participant records
 - ◆ **THEN** Execute the following
 - ◆ Complete Person Registration for the new person
 - ◆ Create a Linked Participant record with the following data:
 - External User's Relationship = Person
 - Participant = Person
 - ◆ ~~Execute Finalizing Linking and Unlinking Process~~ (Modify)
 - ◆ ~~Generate 'Your Account Has Been Linked' notification~~
 - ◆ **ELSE** Generate Online Application Task

Search for all 'Link my account' forms submitted since last execution of batch. For each application Execute Person Match for External User and perform the following:

- **IF** All the following are true after the Person Match Process is completed:
 - An Exact Match was found between External User and an existing Person participant record
 - Person have a single Household Member evidence without an end date (active on a single case)
 - IC doesn't not have a Converted evidence without an end date (case is no longer in converted mode)
- ◆ **THEN** Execute the following
 - ◆ Create a Linked Participant record with the following data:
 - External User's Relationship = Person
 - Participant = Person
 - ◆ ~~Execute Finalizing Linking and Unlinking Process~~ (Modify)
 - ◆ ~~Generate 'Your Account Has Been Linked' notification~~
- ◆ **ELSE** Generate PSPMPR Account Link Request Task

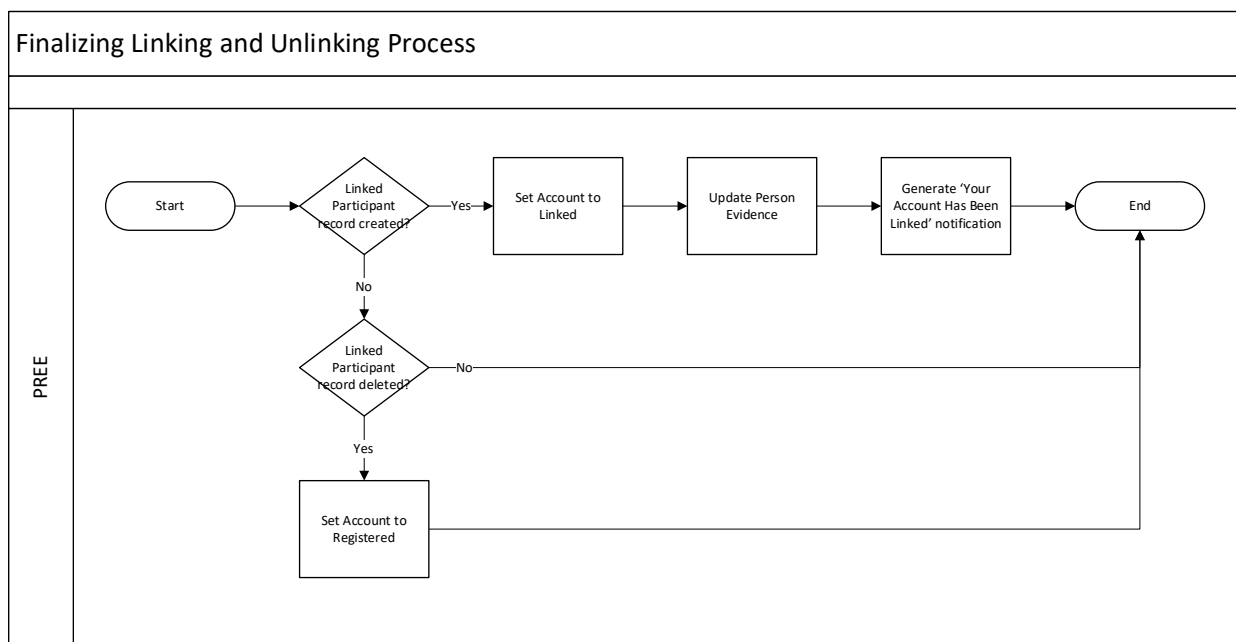

6.2 Finalizing Linking and Unlinking Process (Modify)

The purpose of the 'Finalizing Linking' process is to set the External User account with the correct account type. When a Person is added as a Linked Participant, the External User Account Type should be set to Linked. Similar, when the Person is removed, then the External User Account Type should be set to Registered.

6.2.1 High Level Steps

Figure 85: Finalizing Linking and Unlinking Process <CR189>

6.2.2 Predecessor

Linking External User with Person Process (Modify)

6.2.3 Successor

No Touch Online Application Process (Modify)

6.2.4 Execution Frequency

<CR189> **Real-time** Every time one of the following events occurs:

- ~~When triggered by Nightly,~~ **After** Linking External User with Person Process (Modify)
- When a caseworker creates a new Linked Participant record on the External User profile
- **When a caseworker removes a Linked Participant record on the External User profile**

6.2.5 Inputs

The inputs will be determined by the development team.

6.2.6 Outputs

The outputs will be determined by the development team.

6.2.7 Detailed Steps

- **IF** A Linked Participant record of type Person is added to the External User profile
 - ◆ **THEN** Set the External User Account Type to Linked **AND** Update Person’s evidence **AND** Generate ‘Your Account Has Been Linked’ notification.-as need. See table below.
- **ELSE IF** A Linked Participant record of type Person was deleted the External User profile
- **THEN** Set the External User Account Type to Registered

Table 7: Person Evidence Updates

External User Data		Person Evidences		Comments
Your Settings	Data	Evidence	Field: Data	
Email Addresses	<email>	Email	Email Address: <email> Type: Personal Preferred: Yes	If evidence exist with same email address, then update evidence. Else, create new evidence
Cell phone number	<number>	Phone Number	Phone Number: <number> Phone Type: Mobile Preferred: Yes	If evidence exist with same number, then update evidence. Else, create new evidence
Language	<language>	Contact Preferences	Preferred Language: <language>	If evidence exist, then update evidence. Else, create new evidence

I.4.2.m.ii Completed Online Change of Circumstance FDD

Paperless	Yes	Contact Preferences	Preferred Communication: Electronic/ Paperless	If evidence exist, then update evidence. Else, create new evidence
Paperless	No	Contact Preferences	Preferred Communication: Hard Copy	If evidence exist, then update evidence. Else, create new evidence

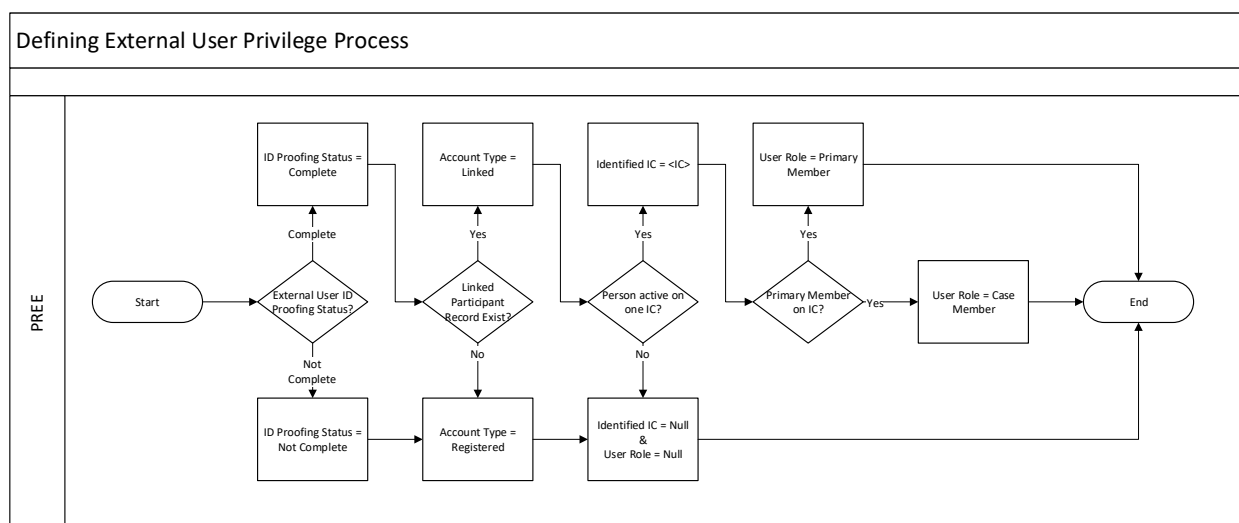

6.3 Defining External User Privilege Process (New)

The purpose of the 'External User Privilege' process is to support Table 3: User Account and Functionality Mapping by identifying the External User privilege each time the user logs in per the defined variables:

- Account Type
- ID Proofing
- User Role
- Identified IC

6.3.1 High Level Steps

Figure 86: Defining External User Privilege Process

<CR189> Real-time, every time a user successfully logs into their account.

6.3.5 Inputs

The inputs will be determined by the development team.

6.3.6 Outputs

The outputs will be determined by the development team.

6.3.7 Detailed Steps

- **IF** External User ID Proofing Status is Complete
 - **THEN** IDProofingStatus = Complete
 - **ELSE** IDProofingStatus = Not Complete **AND** AccountType = Registered, IdentifiedIC = null **AND** UserRole = null
- **THEN IF** Participant Record exist for External User
 - **THEN** AccountType = Linked
 - **ELSE** AccountType = Registered
- **THEN IF** Person (Linked Participant) is on an active member on a single IC (number of Household Member Evidence without an end date = 1)
 - **THEN** IdentifiedIC = <Person's IC>
 - **ELSE** IdentifiedIC = Null **AND** UserRole = Null
- **THEN IF** Person (Linked Participant) is the Primary Member on the IdentifiedIC
 - **THEN** UserRole = Primary Member
 - **ELSE** UserRole = Case Member

6.4 No Touch Online Application Process (Modify)

The purpose of this process is to systematically process applications submitted online. When PREE cannot complete the entire application processing, a task will be generated to notify a caseworker.

6.4.1 High Level Steps

Figure 87: Citizen Portal No Touch Process <CR189>

6.4.5 Inputs

The inputs will be determined by the development team.

6.4.6 Outputs

The outputs will be determined by the development team.

6.4.7 Detailed Steps

- **IF** the application was submitted from a Linked Account
 - **THEN**
 - Execute the Person Match for each household member
 - Check application for Fallout Criteria (see below for criteria)
 - **THEN IF** the application meets Fallout Criteria
 - **THEN** Fallout the process and generate 'Online Application Task'
 - **ELSE** Execute the Electronic Verification process
 - **THEN IF** Any evidence is unverified
 - **THEN** Fallout the process and generate 'Online Application Task'
 - **ELSE** Activate each in-edit evidence
 - **THEN IF** There is any in-edit evidence
 - **THEN** Fallout the process and generate 'Online Application Task'
 - **ELSE**
 - Set Application to 'Ready for Determination'
 - Check Eligibility
 - Authorize All

- **THEN IF** Authorize All was NOT successful
 - **THEN** Fallout the process and generate 'Online Application Task'

- ~~IF~~ application was submitted via Citizen Portal
- ~~AND IF~~ application was submitted from a Linked Account
- ~~AND IF~~ application does NOT meet one of the Fallout Criteria
 - ~~THEN~~ Execute Electronic Verification
 - ~~ELSE~~ Fallout the process and generate 'Online Application Task'
- ~~THEN IF~~ All the evidences are verified
 - ~~THEN~~ Apply changes to all the in Edit Evidence
 - ~~AND THEN~~ Setting the application status to 'Ready For Determination'
 - ~~AND THEN~~ Execute the Auto assessment and Authorization Process (See Enhanced Workload FDD for more information)
 - ~~ELSE~~ Fallout the process and generate 'Online Application Task'

OR

- ~~IF~~ application was submitted via Citizen Portal
- ~~AND IF~~ application was submitted from a Registered Account
 - ~~THEN~~ Execute Linking External User Process
 - ~~THEN~~ Execute Person Match Process for other case members on the application
- ~~AND IF~~ application does NOT meet one of the Fallout Criteria
 - ~~THEN~~ Execute Electronic Verification
 - ~~ELSE~~ Fallout the process and generate 'Online Application Task'
- ~~THEN IF~~ All the evidences are verified
 - ~~THEN~~ Apply changes to all the in Edit Evidence
 - ~~AND THEN~~ Setting the application status to 'Ready For Determination'
 - ~~AND THEN~~ Execute the Auto assessment and Authorization Process (See Enhanced Workload FDD for more information)
 - ~~ELSE~~ Fallout the process and generate 'Online Application Task'

Fallout Criteria:

- Prospect Person exist
- Sensitive Application (See Citizen Portal FDD for more information)
- Completed a blank application (application was not prepopulated)

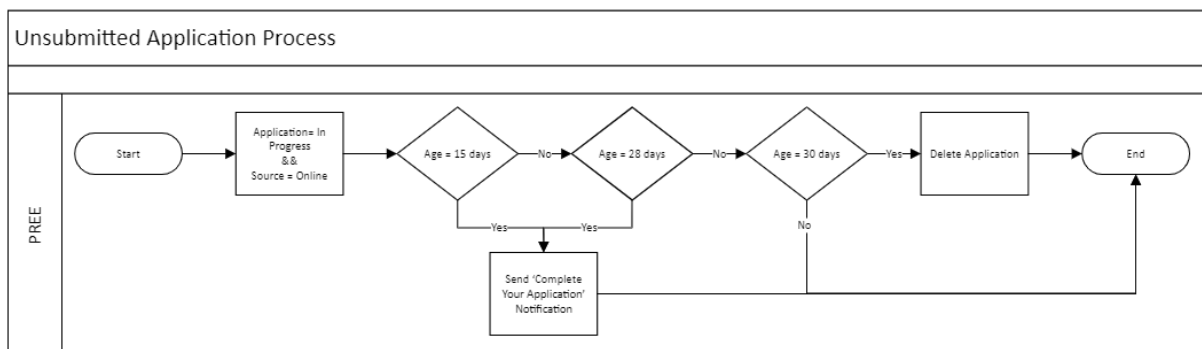

- Medical Expense record with start date greater than 3 months from application month exist

6.5 Unsubmitted Application Process (New)

The purpose of the Unsubmitted Application process is to identify applications from the Citizen Portal with status 'In Progress' and reached an age of 15, 28, or 30. On day 15 and 28, a reminder notification is sent to the user. On day 30, the application will be deleted. Once deleted, users will not have the ability to retrieve the application.

N/A

6.9.3 Successor

Central Print Notice Mailing

6.9.4 Execution Frequency

<CR189> Real-time, each time a notice is generated.

6.9.5 Inputs

The inputs will be determined by the development team.

6.9.6 Outputs

The outputs will be determined by the development team.

6.9.7 Detailed Steps

WHEN Notice is generated

- **IF** The recipient is linked to a Citizen Portal account
 - **THEN** Send 'New Notice Available Notification'
- **AND IF** Notification delivery was successful
- **AND IF** The recipient communication preference is "Electronic/Paperless"
- **THEN**
 - Prevent the notice from being picked up by the Central Print Notice Mailing
 - Set the Delivery Method to Email in the Communication Details of the Communication
 - Set the Email Address to the External User's email address in the Correspondent Details of the Communication

Note the following notices should always be sent by postal mail:

- Confirming Your Paperless Enrollment Notice
- Undelivered e-Notification Notice

7 Tasks, Alerts, Work Queues

The Tasks, Alerts, Work Queues section will provide a detailed list of all the tasks, alerts, and work queues being modified, added, or removed per the PRMP requirements associated to Online Intake Application Processing.

7.3 Trigger(s): As indicated in the Linking External User with Person Process (Modify) and Finalizing Linking and Unlinking Process (Modify)

The purpose of the 'Finalizing Linking' process is to set the External User account with the correct account type. When a Person is added as a Linked Participant, the External User Account Type should be set to Linked. Similar, when the Person is removed, then the External User Account Type should be set to Registered.

7.3.1 High Level Steps

Figure 85: Finalizing Linking and Unlinking Process <CR189>

7.3.2 Predecessor

Linking External User with Person Process (Modify)

7.3.3 Successor

No Touch Online Application Process (Modify)

7.3.4 Execution Frequency

<CR189> Real-time Every time one of the following events occurs:

- ~~When triggered by Nightly, After~~ Linking External User with Person Process (Modify)

- When a caseworker creates a new Linked Participant record on the External User profile
- When a caseworker removes a Linked Participant record on the External User profile

7.3.5 Inputs

The inputs will be determined by the development team.

7.3.6 Outputs

The outputs will be determined by the development team.

7.3.7 Detailed Steps

- **IF** A Linked Participant record of type Person is added to the External User profile
 - ◆ **THEN** Set the External User Account Type to Linked **AND** Update Person's evidence **AND** Generate 'Your Account Has Been Linked' notification.-as need. See table below.
- **ELSE IF** A Linked Participant record of type Person was deleted the External User profile
- **THEN** Set the External User Account Type to Registered

Table 7: Person Evidence Updates

| External User Data | | Person Evidences | | Comments |
|--------------------------|----------|------------------|--|--|
| Your Settings | Data | Evidence | Field: Data | |
| Email Addresses | <email> | Email | Email Address:
<email>
Type: Personal
Preferred: Yes | If evidence exist with same email address, then update evidence. Else, create new evidence |
| Cell phone number | <number> | Phone Number | Phone Number:
<number>
Phone Type: Mobile
Preferred: Yes | If evidence exist with same number, then update evidence. Else, create new evidence |

~~9.5 Citizen Portal Announcement Notice (New)~~

~~The Citizen Portal Announcement Notice is a notice that informs the client about the Citizen Portal and instructions on how to set up an account.~~

~~9.5.1 Description of the Citizen Portal Announcement~~

~~The Citizen Portal Announcement Notice is a communication that will be sent by postal mail together with the first notice mailed to a client after the Citizen Portal is updated in the stabilization release. It includes information about the Citizen Portal, its features and benefits, and instructions on how to set up an account.~~

9.5.2 ~~Generation Details of the Citizen Portal Announcement~~

Generate this notice when the following event occurs:

- ~~▪ A new notice was generated.~~
- ~~▪ Recipient of the new notice is not linked to an External User.~~
- ~~▪ The Citizen Portal Announcement Notice has not been sent to this recipient (send notice ones).~~

9.6 ~~Welcome to PSPMPR Notice (New)~~

The ~~Welcome to PSPMPR Notice~~ is a notice that includes the ~~username and a temporary password~~ when the ~~account was created by the caseworker~~.

9.6.1 ~~Description of the New PSPMPR Account with Temporary Password~~

The ~~New PSPMPR Account with Temporary Password Notice~~ is a communication that will be handed to the citizen by a caseworker who has created a ~~Citizen Portal~~ account for them. It includes the ~~username and a temporary password~~ which can be used to access the ~~account in order to create a permanent password~~.

Note that this notice should never be sent by mail or to the ~~Citizen Portal~~.

9.6.2 ~~Generation Details of the New PSPMPR Account with Temporary Password~~

Generate this notice and never send it by postal mail or make it available in the ~~Citizen Portal~~ when the following event occurs:

- ~~Caseworker created a new user account using 'New PSPMPR Account' from action menu of the Person page. See New PSPMPR Account for more information.~~

9.6.3 ~~Layout of the New PSPMPR Account with Temporary Password~~

10 Development Considerations

The Development Considerations section contains additional information for the development team to take into consideration during the development phase of the project.

No Development Considerations have been identified for the Online COC Citizen Portal FDD.

11 Training Considerations

11.1 Manual PSPMPR Account Linking Process

The 'Linking a Person to an External User' process needs to be updated to include an online link request. Also, we need to determine what the caseworker should do when they cannot find the person in PREE or are not sure which Person case to link to the External User (multiple possible matches). When linking a person (in person or online request) the caseworker will need to:

- Check if the Person is an active member on a single IC. Persons active on multiple cases will not have access to prepopulated forms. Therefore, the caseworker needs to identify which case is the correct case and end date the Household Member evidence on the other case(s).
- Check if the Person's case is a converted case. If so, caseworker should work on resolving the Converted Case.

12 Reporting Considerations

This section is not applicable for Online Change of Circumstances FDD.

13 Use Cases and Scenarios

This section contains Use Cases and Scenarios associated to the Citizen Portal FDD. Use Cases describe the high-level processes to complete an activity. Scenarios will be used to validate the modifications made within the Citizen Portal FDD.

13.1 Use Case 1: Complete a blank online application

13.1.1 Description

Citizen wants to submit an application.

13.1.2 Actors

Citizens

13.1.3 Pre-Conditions

Citizen has a registered account OR Citizen has a linked account with no case OR Citizen has a linked account and a single active case with user role Case Member.

Citizen has not already started and saved an application or submitted an application that is in progress (not in Completed status).

13.1.4 Post-Conditions

The user has submitted an application.

13.1.5 Main Scenario

1. User opens the Citizen Portal home page
2. User clicks 'Login' in the home page header to display the 'Login' page
3. User completes required fields, including username and password
4. User clicks 'Login' button
5. The Dashboard for a logged-in user is displayed
6. User clicks on Apply for benefits link
7. Apply for benefits page is displayed
8. User clicks next
9. Include benefits page is displayed
10. User can select to apply for retroactive coverage and clicks next
11. Application overview page is displayed

12. User reviews the information on the page and clicks 'Start application' to begin an application
13. The 'Information about you' page is displayed
14. User proceeds to complete the application pages
15. Once the application is signed and submitted the 'Application Submitted' page is displayed
16. End Use Case

13.1.6 Extensions

No extension identified.

13.1.7 Frequency

Multiple times.

13.1.8 Special Requirements

13.1.8.1 Performance

No special performance requirements.

13.1.8.2 Security

No special security requirements.

13.1.8.3 Usability / Accessibility

No special usability requirements.

13.1.8.4 Other

No other requirements.

13.2 Use Case 2: Complete a prepopulated online application

13.2.1 Description

Citizen wants to submit an application.

13.2.2 Actors

Citizens

13.2.3 Pre-Conditions

Citizen has a linked account with a single case where their user role is Primary Member.

Citizen has not already started and saved an application or submitted an application that is in progress (not in Completed status).

13.2.4 Post-Conditions

The user has submitted an application.

13.2.5 Main Scenario

1. User opens the Citizen Portal home page
2. User clicks 'Login' in the home page header to display the 'Login' page
3. User completes required fields, including username and password
4. User clicks 'Login' button
5. The Dashboard for a logged-in user is displayed
6. User clicks on Apply for benefits link
7. Apply for benefits page is displayed
8. User clicks next
9. Application overview page is displayed
10. User reviews the information on the page and clicks 'Start application' to begin an application
11. User is prompted to review current address and make changes as needed
12. Next, user is prompted to review household members and remove members as needed.
13. Next, user is prompted to review their personal information summary page and make changes as needed
14. Next, user is prompted to review the home member information summary page and make changes as needed
15. Next, user is prompted to review the general information summary page and make changes as needed
16. Next, user is prompted to review the summary of your income page and make changes as needed
17. Next, user is prompted to review the summary of your expenses page and make changes as needed
18. Next, user is prompted to review the summary of your resources page and make changes as needed
19. Next, user is prompted to review the health insurance summary page and make changes as needed
20. Finally, user is prompted to review the disclosure and agrees to the terms and conditions on the Electronic Signature page
21. User submits the application and the confirmation page is displayed
22. End Use Case

13.2.6 Extensions

No extension identified.

13.2.7 Frequency

Annual or less often.

13.2.8 Special Requirements

13.2.8.1 Performance

No special performance requirements.

13.2.8.2 Security

User must had completed ID Proofing.

13.2.8.3 Usability / Accessibility

No special usability requirements.

13.2.8.4 Other

No other requirements.

13.3 Use Case 3: Submit a Renewal Form

13.3.1 Description

Citizen wants to submit a renewal form.

13.3.2 Actors

Citizens

13.3.3 Pre-Conditions

Citizen has a linked account.

Citizen is a primary client on an active case.

A household member is in their recert period.

A renewal form is not saved, or already submitted and in progress.

13.3.4 Post-Conditions

The user has submitted a renewal form.

13.3.5 Main Scenario

1. User opens the Citizen Portal home page
2. User clicks 'Login' in the home page header to display the 'Login' page
3. User completes required fields, including username and password
4. User clicks 'Login' button
5. The Dashboard for a logged-in user is displayed

6. User clicks on Your benefits
7. User clicks Start button within the Online Renew card
8. Renewal Overview page is displayed
9. User reviews the information on the page and clicks 'Next' to begin a renewal
10. User completes steps 11 – 20 of Use Case 2: Complete a prepopulated online application
11. Once the renewal is signed and submitted the 'Renewal Submitted' page is displayed
12. End Use Case

13.3.6 Extensions

No extension identified.

13.3.7 Frequency

Annually for each certification period in a household.

13.3.8 Special Requirements

13.3.8.1 Performance

No special performance requirements.

13.3.8.2 Security

User must have completed ID Proof

13.3.8.3 Usability / Accessibility

No special usability requirements.

13.3.8.4 Other

No other requirements.

13.4 Use Case 4: Submit a Change on the Citizen Portal

13.4.1 Description

Citizen wants to submit a change of circumstances on the Citizen Portal.

13.4.2 Actors

Citizens

13.4.3 Pre-Conditions

Citizen has a linked account.

13.4.4 Post-Conditions

The user has an email confirming the change was reported.

13.4.5 Main Scenario

1. User opens the Citizen Portal home page
2. User clicks 'Login' in the home page header to display the 'Login' page
3. User completes required fields, including username and password
4. User clicks the 'Login' button
5. The Dashboard for a logged-in user is displayed
6. User clicks 'Profile' tab
7. Your Profile screen is displayed
8. User clicks on Change of Circumstance card
9. User reviews the Change of Circumstance overview page and clicks on next
10. User select the type of changes to report against
11. The summary page for the first change type is displayed. User can make the necessary updates then proceed to the next summary page until all the summary pages for each of the selected change types have been displayed and reviewed.
12. The user reads the disclosure and agrees to the terms and conditions on the Electronic Signature page
13. The user clicks on next and the Confirmation page is displayed
14. End use case

13.4.6 Extensions

13.4.6.1 Extension 1 (After Main Scenario, Step 10)

This extension happens when the user does not select any change types.

15. The Citizen Portal displays the message "<Please select at least one type of information to change.>"
16. User selects at least one change type
17. Return to step 11 in Main Scenario

13.4.6.2 Extension 2 (After Main Scenario, Step 7)

This extension happens when the user clicks on Change Address card.

18. User clicks on Change Address card
19. Address overview page is displayed
20. User navigates through the address change pages and reports address(es) change
21. Address Change summary page is displayed
22. Return to step 12 in Main Scenario

13.4.6.3 Extension 3 (After Main Scenario, Step 7)

This extension happens when the user clicks on Add/Remove Household Member card.

23. User clicks on Add/Remove Household Member
24. Add and Remove household member overview page is displayed
25. User removes a household member by entering all relevant details
26. User answers Yes to add another household member and clicks on next
27. User reviews the Removed Household Member Summary page and clicks on next
28. User is navigated to the online application to enter information pertaining to the new member from the Home Member Page to Health Insurance Summary page.
29. Return to step 12 in Main Scenario

13.4.6.4 Extension 4 (After Main Scenario, Step 7)

This extension happens when the user clicks on Change Income card.

30. User clicks on Change Income card
31. Summary of your income is displayed
32. User enters the income changes
33. Return to step 12 in Main Scenario

13.4.7 Frequency

Multiple times.

13.4.8 Special Requirements

13.4.8.1 Performance

No special performance requirements.

13.4.8.2 Security

User must have completed ID Proofing.

13.4.8.3 Usability / Accessibility

No special usability requirements.

13.4.8.4 Other

If user is primary client on the case, then user can view and report changes for the entire household. If user is a non-primary member on the case, the user can only view their information and make changes to their information.

13.5 Scenarios

13.5.1 Citizen Portal Homepage Scenarios

Table 12: Citizen Portal – Homepage

| Scenario number | Scenario Explanation | Scenario Description | Expected Outcome |
|-----------------|---|---|---|
| ONLCOC-HP-001 | To validate that changes have been made, per the design document, on the Sign Up Page. | Access the Sign Up page from the Citizen Portal Home Page and validate the changes to screen. | All changes have been made. |
| ONLCOC-HP-002 | To successfully Log In to Citizen Portal with the username and temporary password provided by caseworker.

Promoted to set password on the 'Set your password' page, per the design document. | Access the Log In page from the Citizen Portal and sign into user account.

Set Password page appears. Enter a new password, press Submit. Login again with the new password. | Successfully sign into user account and 'Log Out' displays. |
| ONLCOC-HP-003 | To validate that changes have been made, per the design document, to the Citizen Portal Footer. | Access Citizen Portal via the SIT URL and validate the changes. | All changes have been made. |

13.5.2 Citizen Portal Your Account Scenarios

Table 13: Citizen Portal – Your Account

| Scenario number | Scenario Explanation | Scenario Description | Expected Outcome |
|-----------------|---|--|-----------------------------|
| ONLCOC-YA-001 | To validate that changes have been made, per the design document, to the Citizen Portal Dashboard for a Registered account. | Access the Log In page from the Citizen Portal and sign into user account for a registered user. | All changes have been made. |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | |
|---------------|--|---|---|
| ONLCOC-YA-002 | To validate that changes have been made, per the design document, to the Citizen Portal Dashboard for a Linked account. | Access the Log In page from the Citizen Portal and sign into user account for a user with a linked account. | All changes have been made. |
| ONLCOC-YA-003 | To validate the 'Link my account' page of the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into user account for a registered user. From the Dashboard select 'Link my account'. Complete the page and press Submit. | The page appears and functions as described in the design document. A task is created for the caseworker to perform the link. |
| ONLCOC-YA-004 | To validate that changes have been made, per the design document, to the Citizen Portal Your benefits page for a Linked account. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your benefits'. | All changes have been made. |
| ONLCOC-YA-005 | To validate the 'Profile' page of the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your profile'. | The page appears and functions as described in the design document. |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | |
|---------------|--|--|---|
| ONLCOC-YA-006 | To validate the 'Your settings' page of the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'Update your settings'. | The page appears and functions as described in the design document. |
|---------------|--|--|---|

13.5.3 Citizen Portal Application Scenarios

Table 14: Citizen Portal – Application

| Scenario number | Scenario Explanation | Scenario Description | Expected Outcome |
|-----------------|--|---|--|
| ONLCOC-APP-001 | To validate prepopulated fields in the online application is based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your benefits', then press 'Apply for benefits'. | Verify that the application appears with prepopulated information and that all changes have been made. |
| ONLCOC-APP-002 | To validate an application with retroactive coverage in the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your benefits', then press 'Apply for benefits'. On the 'Include benefits' page, select 'Retroactive Government Health Plan / Medicaid Program'. | All changes have been made. |

13.5.4 Citizen Portal COC Scenarios

Table 15: Citizen Portal – Change of Circumstance

| Scenario number | Scenario Explanation | Scenario Description | Expected Outcome |
|-----------------|---|---|--|
| ONLCOC-COC-001 | To validate the 'Change of Address' pages of the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your profile', then 'Change Address'. | The pages appear and function as described in the design document. |
| ONLCOC-COC-002 | To validate the 'Add and Remove Household Member' pages of the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your profile', then 'Add/Remove a Household member'. | The pages appear and function as described in the design document. |
| ONLCOC-COC-003 | To validate the 'Change of Income' pages of the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your profile', then 'Change Income'. | The pages appear and function as described in the design document. |
| ONLCOC-COC-004 | To validate the 'Change of Circumstance' pages of the Citizen Portal based on the design document. | Access the Log In page from the Citizen Portal and sign into the account for a user with a linked account. From the Dashboard select 'View your profile', then 'Change of Circumstances'. | The pages appear and function as described in the design document. |

13.5.5 Citizen Portal Renewal Scenarios

Table 16: Citizen Portal – Renewal

| Scenario number | Scenario Explanation | Scenario Description | Expected Outcome |
|-----------------|---|---|--|
| ONLCOC-REN-001 | To validate prepopulated fields on the online renewal form in the Citizen Portal is based on the design document. | Access the Log In page from the <Citizen Portal> and sign into the account for a user with a linked account, within their renewal period. From the Dashboard select 'View your benefits', then press 'Renew'. | Verify that the renewal form appears with prepopulated information and that the pages appear and function as described in the design document. |

13.5.6 Caseworker Portal Scenarios

Table 17: Caseworker Portal

| Scenario number | Scenario Explanation | Scenario Description | Expected Outcome |
|-----------------|--|---|-----------------------------|
| ONLCOC-CWP-001 | To validate that changes have been made, per the design document, on the Caseworker Portal Person menu and the New Account page. | Access the main menu for a Person in the Caseworker Portal, for a person without a Citizen Portal account. Select "New PSPMPR Account". | All changes have been made. |
| ONLCOC-CWP-002 | To validate that changes have been made, per the design document, on the Caseworker Portal Person menu and the Disable Account page. | Access the main menu for a Person in the Caseworker Portal, for a person with an enabled Citizen Portal account. Select "Disable PSPMPR Account". | All changes have been made. |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | |
|----------------|---|--|-----------------------------|
| ONLCOC-CWP-003 | To validate that changes have been made, per the design document, on the Caseworker Portal Person menu and the Enable Account page. | Access the main menu for a Person in the Caseworker Portal, for a person with a disabled Citizen Portal account. Select "Enable PSPMPR Account". | All changes have been made. |
| ONLCOC-CWP-004 | To validate that changes have been made, per the design document, on the Caseworker Portal External User page. | Open an External User in Caseworker Portal. Select the "Attachments" tab. | All changes have been made. |

15 Requirements Matrix

This section contains a Requirements Matrix that states the Requirement Description, if there is a Fit or Gap, and any Implementation Details. The Requirements Matrix only contains requirements pertaining to the implementation of the Citizen Portal functionality within PREE. All requirements for the PREE project are maintained in JIRA. Below is an extract from JIRA of the requirements related to Citizen Portal FDD. The requirements and the implementations details listed below will also be included within the PREE Project Requirement Traceability Matrix. The 'Requirement Met OOTB Status' column represents PRMP's approval for the requirements SI has demonstrated have been met OOTB without modifications. If 'N/A' is displayed within this column then modifications had to be made to satisfy the applicable requirement.

For requirement traceability purposes, the following requirements are met and mapped to this design document.

Table 19: Requirement Matrix

| Requirement Number | Requirement Description | Fit-Gap | Implementation Details | Requirement Met OOTB Approval Status |
|--------------------|--|---------|---|--------------------------------------|
| FR-AL-001 | The Solution shall have the ability to distribute notice-related alerts via email to the Applicant. | Fit | Citizen Portal will collect user's email address and send email upon notice generation. | N/A |
| FR-ED-026 | The Solution shall allow Applicants/members, as defined by Puerto Rico, to submit verification materials electronically, by using a mobile device to send a photograph of the document using MMS (Multi Media Message) or email. | Fit | When the user clicks on browser, it allows user to select a photograph from their mobile device to be sent. | N/A |
| FR-ED-072 | The Solution shall have the ability to identify when an email delivery error occurs. | Fit | When an error occurs, a notice will be sent by postal mail to inform the user that PRMP tried to send them a notification via email or SMS text message, but it was unsuccessful. Instructions on how to correct their communication method and the message which could not be sent are included. | N/A |
| FR-INT-019 | The Solution shall allow Applicant/member to view application & renewal status, coverage, and notices through an online channel. | Fit | The Citizen Portal will display application and renewal status, and notices. | N/A |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | | |
|-------------------|---|-----|---|-----|
| FR-INT-020 | The Solution shall allow Applicant/member ability to submit/update application or report changes through an online channel. | Fit | The Citizen Portal will allow submission of applications, renewals, and reports of change of circumstances. | N/A |
| FR-INT-022 | The Solution shall have the ability to display privacy notifications, including Section 508 compliance notifications, as defined by Puerto Rico. | Fit | The Citizen Portal OOTB provides a footer with links to PRMP Disclaimers, Privacy, and Accessibility message. | N/A |
| FR-INT-027 | The Solution shall allow an Applicant to specify or update their preferences. Preferences may include, but are not limited to:

i. Preferred method of communication (i.e., email, SMS/text, phone, etc.)

ii. Subscription to alerts and notifications (e.g., changes to client record, new messages, referral changes, etc.)

iii. Notification types desirediv. Language preference including notification (Spanish/English) | Fit | The Citizen Portal will allow the user to modify email address, cell phone, language, and paperless preference for online notices. | N/A |
| FR-INT-028 | The Solution shall generate a notification to the user that the personal preferences have been updated. | Fit | The Citizen Portal will send a notification to the user when communication settings (email, phone) are changed or paperless notices are selected. | N/A |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | | |
|-------------------|---|-----|---|-------------------------|
| FR-INT-029 | The Solution shall have the ability to activate user account, provide account confirmation and send notification to the user based on user preferences. | Fit | Sign up page will allow the user to activate an account in the Citizen Portal. Once an account is created, a confirmation message is displayed, and a notification is sent. | N/A |
| FR-INT-039 | The Solution shall allow member/Applicants to attach documents (including but not limited to verification proof documents) to a case/individual. | Fit | The Citizen Portal OOTB includes a 'Your Documents' tab where users can attach documents for application, renewal and COC verifications. | OOTB - Pending Approval |
| FR-INT-041 | The Solution shall allow members/Applicants to delete documents from an individual/case file based on user role. | Fit | User can delete upload files to their case, as needed, prior to submission. Once submitted, user can contact PRMP to request the removal of a submitted document. | N/A |
| FR-INT-046 | The Solution shall provide the capability for online Applicants/member to enter or report changes of circumstances through the online portal. | Fit | The Citizen Portal will allow reporting of changes to address, household member, income, and general information. | N/A |
| FR-INT-058 | The Solution shall provide the capability to allow Applicants to apply for multiple public assistance programs online. | Fit | The Citizen Portal will allow users to apply for Medical Assistance (this application supports systematic evaluation for MAGI and Non-MAGI and manual evaluation for Spenddown) and Retroactive Medical Assistance. | OOTB - Pending Approval |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | | |
|-------------------|---|-----|---|-----|
| FR-INT-060 | The Solution shall provide the capability for members to renew Medicaid eligibility through all modes (online, phone, fax, mail, in person. | Fit | The Citizen Portal will provide for online renewals; other modes are supported by the caseworker portal and discussed in the Renewal FDD. | N/A |
| FR-INT-066 | The Solution shall have the ability to alert Applicants/members prior to their un-submitted application being deleted at the end of a configurable Puerto Rico's defined time period. | Fit | When an application or renewal form reaches an age of 15 and 28 days, a reminder notification is sent to the user. On day 30, the form will be deleted. | N/A |
| FR-INT-113 | The Solution shall be able to receive and process applications, without human intervention. | Fit | The system will process applications submitted online. When PREE cannot complete the entire application processing, a task will be generated to notify a caseworker. | N/A |
| FR-NT-005 | The Solution shall give Applicant/member a choice in viewing application status, coverage, and notices through an online channel. | Fit | Users will be able to view application status, view their coverage, and view/print their notices. | N/A |
| FR-NT-006 | The Solution shall generate and send a notice by regular mail notice to confirm and document an individual's decision to receive notices electronically. | Fit | A notice will be sent by postal mail to inform the user that they will not be receiving Notices by mail in the future. Notices can be viewed and printed from the Citizen Portal. | N/A |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | | |
|------------------|--|-----|--|-------------------------|
| FR-NT-007 | The Solution shall generate and send a notice by regular mail notifying individuals of their right to change their election to receive notices electronically. | Fit | The notice which informs the user that they will not be receiving Notices by mail in the future includes a description of where to change this election. | N/A |
| FR-NT-008 | The Solution shall post electronic notices within 1 business day of notice generation and send an electronic communication alerting the individual that a notice was posted. | Fit | Notices are generated and made available on the Citizen Portal immediately, and a notification is sent to alert the user. | N/A |
| FR-NT-009 | The Solution shall generate a notice of a failed electronic communication and send by mail within 3 business days from when the electronic communication is undelivered. | Fit | A notice will be sent by postal mail to inform the user that PRMP tried to send them a notification message, but it was unsuccessful. Instructions on how to correct their communication method and the message which could not be sent are included. The notice will be available for printing and mailing within 3 business days. The Central Printing process is responsible for the actual printing and mailing of the notice. | N/A |
| FR-NT-010 | The Solution shall generate and send a paper version of an electronic notice by mail upon Applicant/member request. | Fit | The Citizen Portal allows a user to request that a notice in the Citizen Portal be mailed to them. | OOTB - Pending Approval |

I.4.2.m.ii Completed Online Change of Circumstance FDD

| | | | | |
|------------------|---|-----|---|-----|
| FR-WM-033 | The Solution shall allow external users (Applicant/member) to have tasks assigned to them for completion of applications and redeterminations / recertifications. | Fit | The Citizen Portal will alert users of incomplete applications and pending renewals upon sign-in, through notifications, and notices which are visible on the citizen portal. | N/A |
| T3.2.20 | The Workflow/BPM component shall support multiple forms of electronics notification channels and protocols for external users (e.g. text, page, SMTP, SNMP, SMS, etc.). | Gap | The Citizen Portal will notify users within the portal and by email or SMS text message <Pending Decision EE-DL00271>. | N/A |
